

# LED PRODUCT 5 YEAR LIMITED WARRANTY

Peerless Electric warrants to the original purchaser that each of its LED Product(s), running under normal use and conditions, controls, and the finish on the LED Products will both be free from defects in material and workmanship. This warranty shall be valid for a period of five (5) years from the date of shipment of the LED Product(s) from Peerless Electric's facility. This Limited Warranty extends only to Peerless Electric's original purchaser.

An LED Product(s) will be considered defective if it fails to operate in accordance with the performance specifications set forth in the documentation accompanying the LED Product(s) or on published Peerless Electric's Specification sheets. An LED Product(s) shall not be considered defective solely as a result of the failure of individual LED components to emit light if the number of inoperable components is less than 15% of the total number of LED components in the LED Product(s). The finish on an LED Product(s) will be considered defective if it exhibits cracking, peeling, excessive fading or corrosion during the term of this Limited Warranty. During the Limited Warranty period some fading, staining or chalking of the finish may occur. This is normal aging for the finish used, is not a manufacturing defect, and is not covered by this Limited Warranty.

This Limited Warranty does not cover removal, commissioning, programming, or reinstallation costs, including labor, equipment, or other expenses associated with the removal and/or reinstallation of original or replacement Product(s) and/or parts. It is applicable solely to the Product(s) in their delivered state and exclusively benefits the original end-user at the initial location. This Warranty is non-transferable or assignable by the original end-user. The repair or replacement of any Product(s) or component part is the exclusive remedy for Product(s) failing to meet the Limited Warranty terms, and it does not extend the Warranty Period.

Claims related to LED Product(s) defects or failures must be submitted in writing within thirty (30) days of discovery to an authorized representative or directly to Peerless Electric. LED Product(s) or component part(s) may need to be returned for inspection and verification of non-conformance by Peerless Electric. While Peerless Electric is not responsible for costs, expenses, or damages related to shipping LED Product(s) to them, they will bear all costs for shipping replacement Product(s) to the end-user. Replacements provided under this Limited Warranty may be subject to additional charges based on actual usage of the product and the unexpired portion of the Warranty. Replacements provided under this Limited Warranty are warranted for the remaining Warranty Period, treating them as if they were the original components.

Peerless Electric reserves the right to use new, reconditioned, refurbished, repaired, or remanufactured products or parts in the warranty repair or replacement process. If the LED Product(s) requiring replacement are discontinued or unavailable, Peerless Electric may substitute them with comparable LED Product(s).

This Limited Warranty, without limitation, does not apply to and excludes claims or damage to the LED Product(s) or parts thereof resulting from any cause other than defective materials or workmanship, including, but not limited to, claims and damages resulting from:

- incorrect or improper handling, storage or installation of LED Product(s) or parts thereof;
- failure to follow operating, maintenance or environmental instructions prescribed by Peerless Electric's or applicable electrical codes;
- fault or negligence of the original purchaser, any end user of the LED Product(s) and/or any third party not engaged by the Manufacturer;
- misuse, abuse, negligence, accident or use of the LED Product(s) beyond product specifications;
- connection of the LED Product(s) to third party sensors, dimmers, emergency packs, batteries, signal lines or devices, etc.;
- alteration or repair of the LED Product(s) by anyone but Peerless Electric's or its authorized representatives;
- improper maintenance or service of the LED Product(s);
- abnormal site or usage conditions, including, but not limited to, animal or insect activity, power surges; improper power supply; electrical current fluctuations, including under/over voltage or under/over current; corrosive environment installations; excessive ambient temperatures; induced vibration; harmonic oscillation, or resonance associated with movement of air currents around the LED Product(s).

Peerless Electric makes no further warranties whatever, express or implied, and all further warranties, including without limitation any implied warranties of fitness or merchantability, are hereby disclaimed and excluded from this Limited Warranty. In no event shall the manufacturer have any liability for consequential, incidental, indirect, special or punitive damages claimed by the original purchaser, consumer, or any other party in connection with the manufacturer's LED Product(s) or this Limited Warranty. purchaser's sole and exclusive remedy for breach of this Limited Warranty with respect to the manufacturer's LED Product(s) which is defective shall be limited to the express remedies as stated in this Limited Warranty.

No modification of this Limited Warranty shall be in effect unless issued in writing and signed by Peerless Electric's authorized factory representative. No agent, distributor or dealer is authorized to change, modify or extend the terms of this Limited Warranty in any manner.

This supersedes all previous warranties.
